TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, C++

Backend: Node.js, Express.js, FastAPI, RESTful APIs, Authentication (JWT), Middleware Architecture

Cloud & DevOps: AWS (EC2, S3), Git, Linux, Docker

Databases & Tools: PostgreSQL, MySQL, MongoDB, Redis (Caching), Apache Kafka (Event Streaming)

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, System Design

PROFESSIONAL EXPERIENCE

IEEE Student Branch, The LNM Institute of Information Technology **Aug 2024 - March 2025**
Web Development Team Member *Jaipur, Rajasthan*

- Contributed to the development and maintenance of IEEE LNMIIT's official website using React.js and Node.js, improving UI responsiveness and optimizing page load performance by 25%.
- Collaborated in an agile team of 6+ developers, implementing reusable components and REST API integrations to ensure scalable and modular frontend architecture.

mFilterIt (Six Dee Netad Solutions Pvt. Ltd.) **Jun 2024 - Aug 2024**
Software Engineering Intern *Noida, Uttar Pradesh*

- Architected an automated customer-support chatbot using Python and TensorFlow, achieving **95%+ intent classification accuracy** and reducing manual query handling by approximately **40%**.
- Designed fault-tolerant backend workflows with structured validation, centralized logging, and exception handling, lowering runtime failures by **30%+** and improving service reliability.
- Designed a ride-sharing system LLD in C++ using **OOP and SOLID principles**, modeling core entities and implementing a service layer with lifecycle management and strategy-based fare calculation.

The LNM Institute of Information Technology **Jan 2024 - May 2024**
UG Teaching Assistant - Introduction to Scripting Lab *Jaipur, Rajasthan*

- Provided technical support to 60+ students in a Linux environment, helping resolve scripting and configuration issues while improving debugging skills.

PROJECTS

UniApply - University AI Recommendation System  | MERN, JWT, AWS S3, Docker, Gemini API

- Built a full-stack MERN application that recommends universities based on user profile, academic scores, and preferences using Gemini API for AI-driven analysis.
- Implemented secure authentication using JWT (access and refresh tokens), role-based authorisation, and RESTful APIs for scalable backend communication.
- Integrated AWS S3 for document storage and deployed modular backend architecture with optimized MongoDB queries for faster response times.

AI CareerPilot  | MERN, Gemini API, Redis

- Developed a full-stack career management platform with structured project, application, and interview tracking, enabling centralized workflow management and reducing manual tracking effort by 60%.
- Integrated Gemini API to dynamically generate personalized technical roadmaps, resume feedback, and role-specific interview questions based on user goals and skill gaps.

EDUCATION

The LNM Institute of Information Technology **Nov 2022 - May 2026**
B.Tech in ECE with Minor in Artificial Intelligence *Jaipur, Rajasthan*

CODING PROFILES

- LeetCode:** 1700+ Rating, 400+ Problems Solved
- GeeksforGeeks:** Profile
